FULL STACK WEB DEVELOPER

A Web Developer with a Liberal Arts background and an emphasis on back-end development. Earned a certificate in MERN Full Stack Development with acquired skills in JavaScript, CSS, MySQL, and Sequelize.

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML/CSS, JSON, React.js, Sequelize, Node.js

Database: MySQL, MongoDB

Other: Heroku, Netlify, Git Bash, Postman, Microsoft Office Suite, Express.js

PROJECTS

Pikachoose – https://protected-spire-30180.herokuapp.com/ | https://github.com/ZanderMate/teamikea
- Cooperated on a team of four creating a database driven app that rendered and created groupings of objects that also provided cumulative statistics.
- Tools used: HTML, CSS, JavaScript, JQuery, Sequelize.js, Node.js, Express.js, MySQL, Pokedex.js node package, Handlebars.js, CSS Animate.

The Peace Project - https://ygajway.github.io/Project_01/index.html | https://github.com/ZanderMate/Project_01
- Collaborated with four other developers to produce an API driven app that would give users suffering from addiction an outlet and a way to keep track of their progress.
- Tools used: HTML, CSS, JavaScript, JQuery, icanhazdadjokes API, giphy API, Quote Garden API, Chart.js.

EXPERIENCE

Target Corp   **Brooklyn Park, MN**
Sr. Collection Specialist   **2016-2019**
Collected payments on past due accounts for the Target Redcard Credit Card. Mentored new hires on business processes to enhance overall team performance. Directed calls to outbound queue to initiate calls as part of being an Outbound Call Initiator.
KEY ACHIEVEMENTS:
- Kept our SalesForce articles updated and easy to understand as part of a select Content Review Committee.
- Helped beta-test a program to make cease and desist calls more compliant.

EDUCATION
