## FULL STACK WEB DEVELOPER

A Web Developer with a Liberal Arts background, allowing different viewpoints, and an emphasis on back-end development. Earned a certificate in MERN Full Stack Development with acquired skills in JavaScript, CSS, HTML, and JQuery.

## TECHNICAL SKILLS

**Languages:** JavaScript, SQL, HTML/CSS, JSON, React.js, Sequelize, Node.js
**Database:** MySQL, MongoDB
**Other:** Heroku, Netlify, Git Bash, Postman, Microsoft Office Suite, Express.js

## PROJECTS

**Pikachoose** – protected-spire-30180.herokuapp.com/ | github.com/ZanderMate/teamikea
Cooperated with four developers creating an  app that rendered and created teams of Pokémon with cumulative statistics.  **Tools used:** Sequelize.js, Node.js, Express.js, MySQL, Pokedex.js node package, Handlebars.js, CSS Animate.
**The Peace Project** - https://peace-project.netlify.com/ | github.com/ZanderMate/Project_01
Collaborated with four developers to produce an app that would give users suffering from addiction an outlet and a way to keep track of their progress.  **Tools used:** icanhazdadjoke API, Giphy API, Quote Garden API, Chart.js.
**Tigris Shopping** - griep-final-project.herokuapp.com/ | github.com/ZanderMate/final-project
Built a solo shopping app with log-in as seller or buyer that mimics the life-cycle of online shopping.   **Tools used:** Mongoose, Node.js, Express.js, scryfall-client npm, React,js, MTG-Card-View npm, BoardGameAtlas API, BCryptjs npm, jsonwebtoken npm

## EXPERIENCE

**Sr. Collection Specialist,** Target Corp, *Brooklyn Park, MN*                    *2016-2019*
Collected payments using troubleshooting on past due accounts for the Target Redcard Credit Card. Mentored with new hires on processes to enhance overall team performance.
**KEY ACHIEVEMENTS:**
- Kept our SalesForce articles updated by reviewing for correct content and clarity as part of a select Content Review Committee.
- Helped beta-test a program for C&Ds and learn more about the program testing process.

## EDUCATION

**Bootcamp Certificate in Full-Stack  MERN Web Development**
**University of Minnesota - College of Continuing and Professional Studies**
A 24-week intensive program that focused on the MERN Full-Stack with gaining technical skills in JavaScript, CSS, MySQL, HTML, JQuery, and Handlebars.js.
**Bachelor in Arts – English Literature**
**University of Minnesota – Morris**
A four-year degree covering literature from all over the world to gain a greater understanding  of our differences and similarities.
